## Tidy tinies

Because of its importance, observation and association skills should be trained and developed from the very early stages of growth. Once children start identifying objects we should encourage and help them train these competences by playing simple games. This sorting game was created to help parents with that task. Simple daily life objects depicted with carefully thought illustrations to sort out accordingly to their rightful places. A simple game that will help our small ones to learn while they play.

**HIGHLIGHTS:** Hardboard case with 3 dividers and 48 theme illustrated pieces to sort out; very useful tool to train and develop observation and association skills; easy to carry around.

## High-minded

If you're holding this book, you're probably looking to change something in your own life or your children's. We all have had, at one moment or another, the feeling of fighting our own minds, not knowing how to control them. When things go well, we think we were lucky. When they go badly, we think we're weak, not good enough, or that someone set us up. Is it true? Not at all. Almost every time the outcome, good or bad is decided by us, in our minds. That's what we're here to talk about!

Let's find out how we can be more positive, more attentive and effective, more confident.

best-seller

**HIGHLIGHTS:** Growing relevance of the subject for both parents and teachers; practical exercises for training our minds, either in the classroom or at home; tips for public speaking; contains both text and illustrations; 9 fables to be told about everyday subjects, aimed at approaching the problems that go through every child's mind, leading them to deal with issues in a different way; the importance of well-being and mind discipline to go through everyday life.
